

Row per page  → Show

Either use full fledged words or icons for following -

- Add columns
- Manage Relationships
- Save list
- Export Javascript

Instead using more data use precise information.

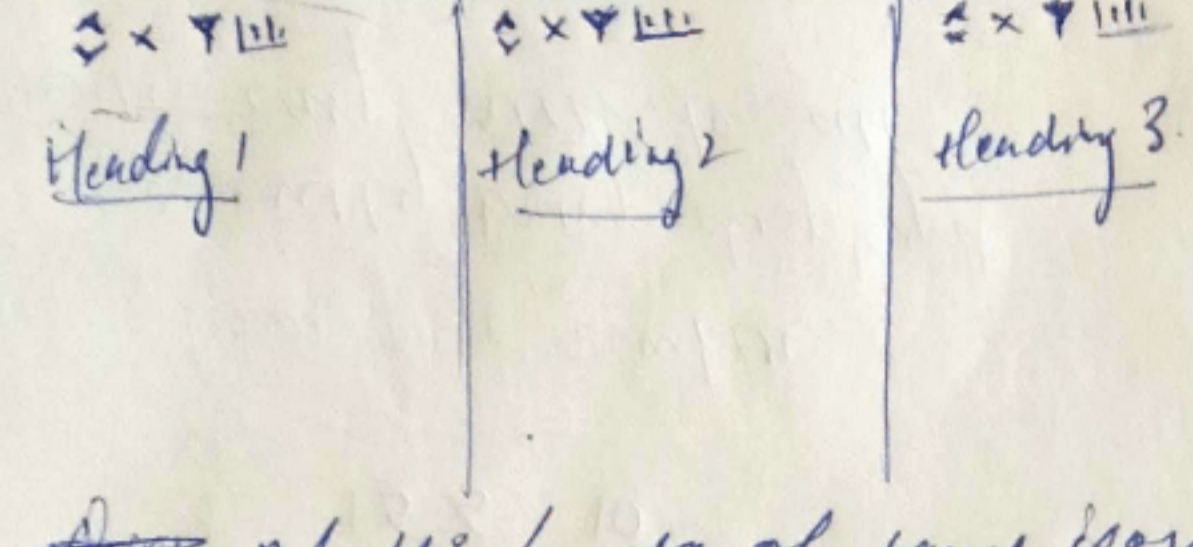

Page 2 of 3 rows

Use better pagination In last of pages ≤ 5

1..4.5.6..10                      1 2 3 4 5

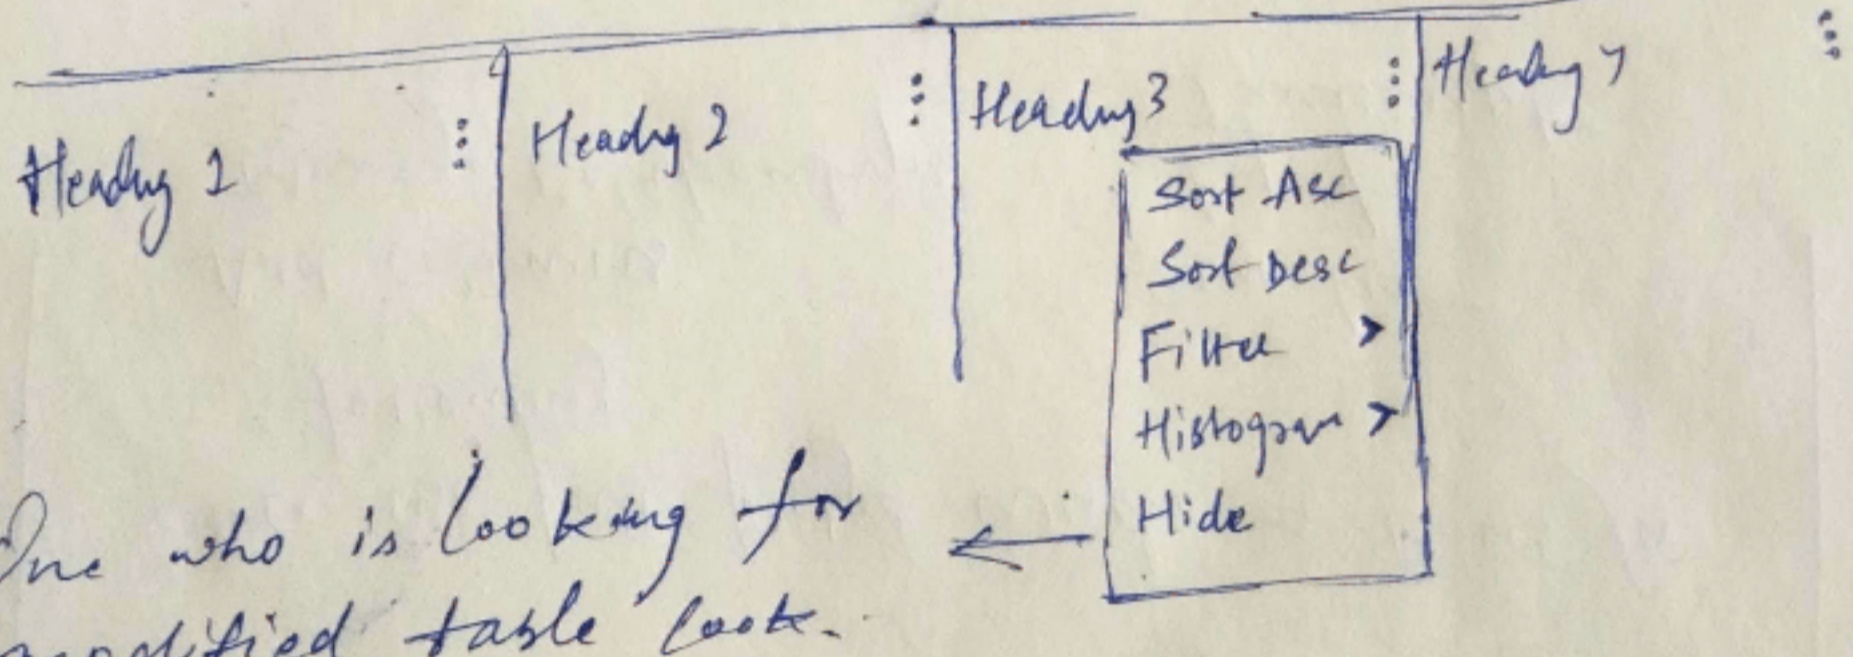

shows page number currently being displayed with easy access to all.

Scanned with CamScanner

Multiple use of same icons cluttering the space. Many icons at once diminishes the existence of individual.

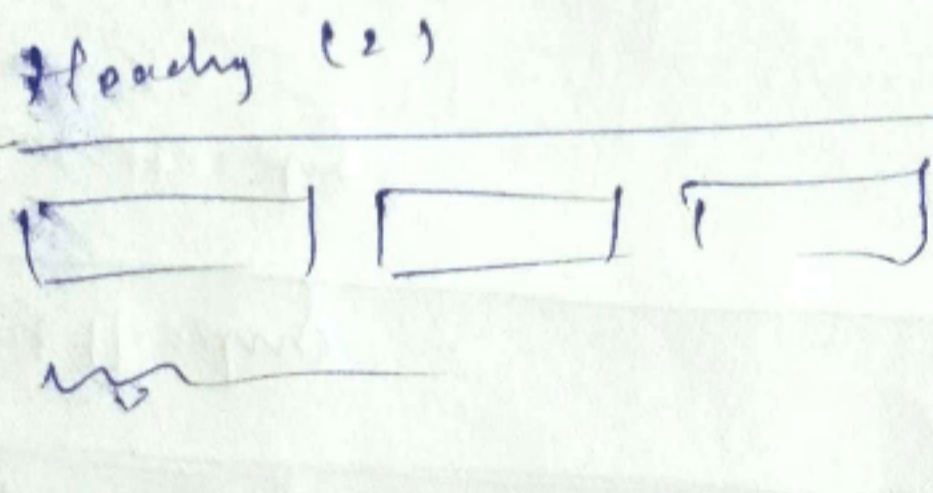

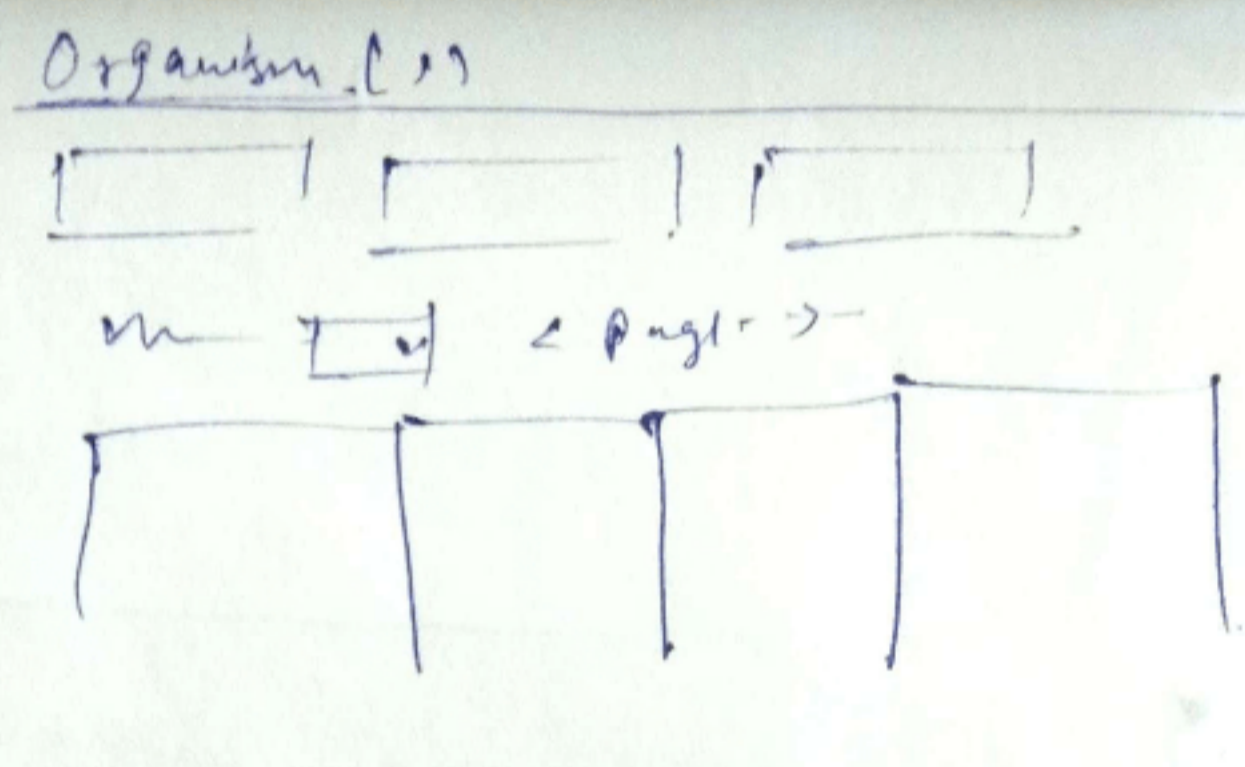

These options might be presented in clear format

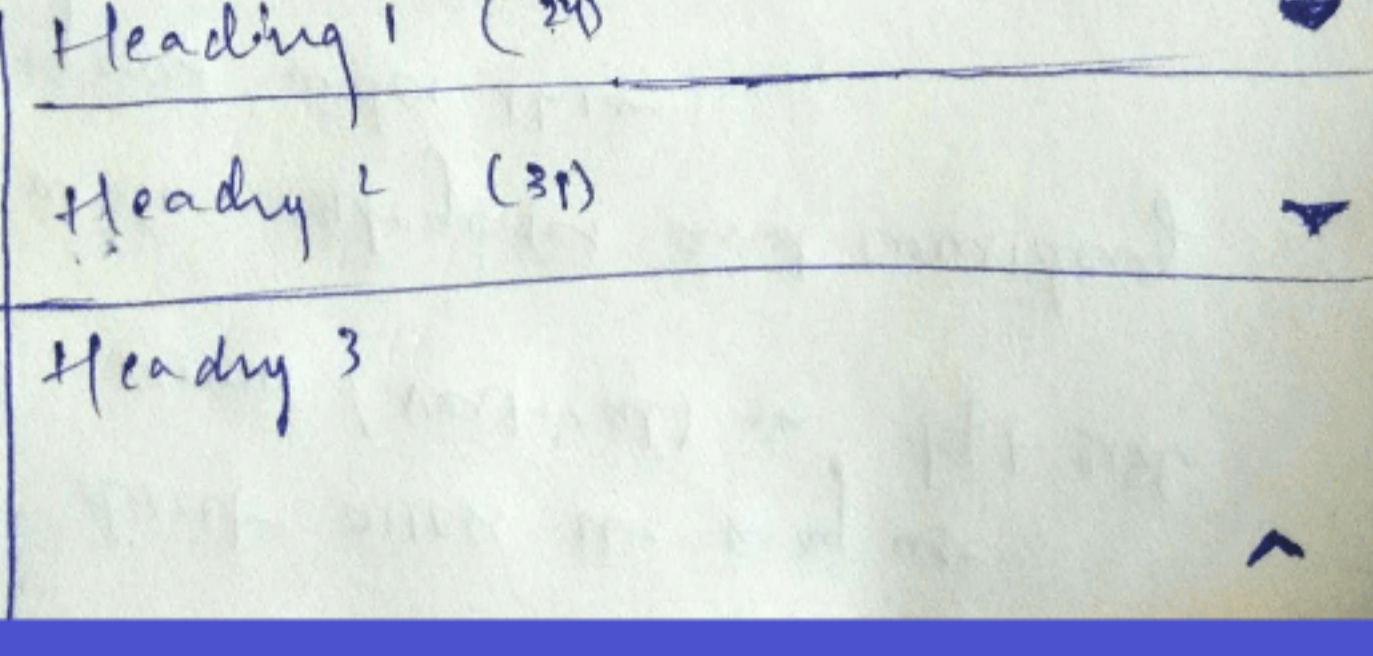

One who is looking for modified table look. could look out for required options through ellipsis (⋮) on top right of any column.

Scanned with CamScanner

Take up all the space. Also, no way of accessing these table easily. If one has reached bottom then it's much of a scrolling. User generally gets frustrated during all this procedure and actions.

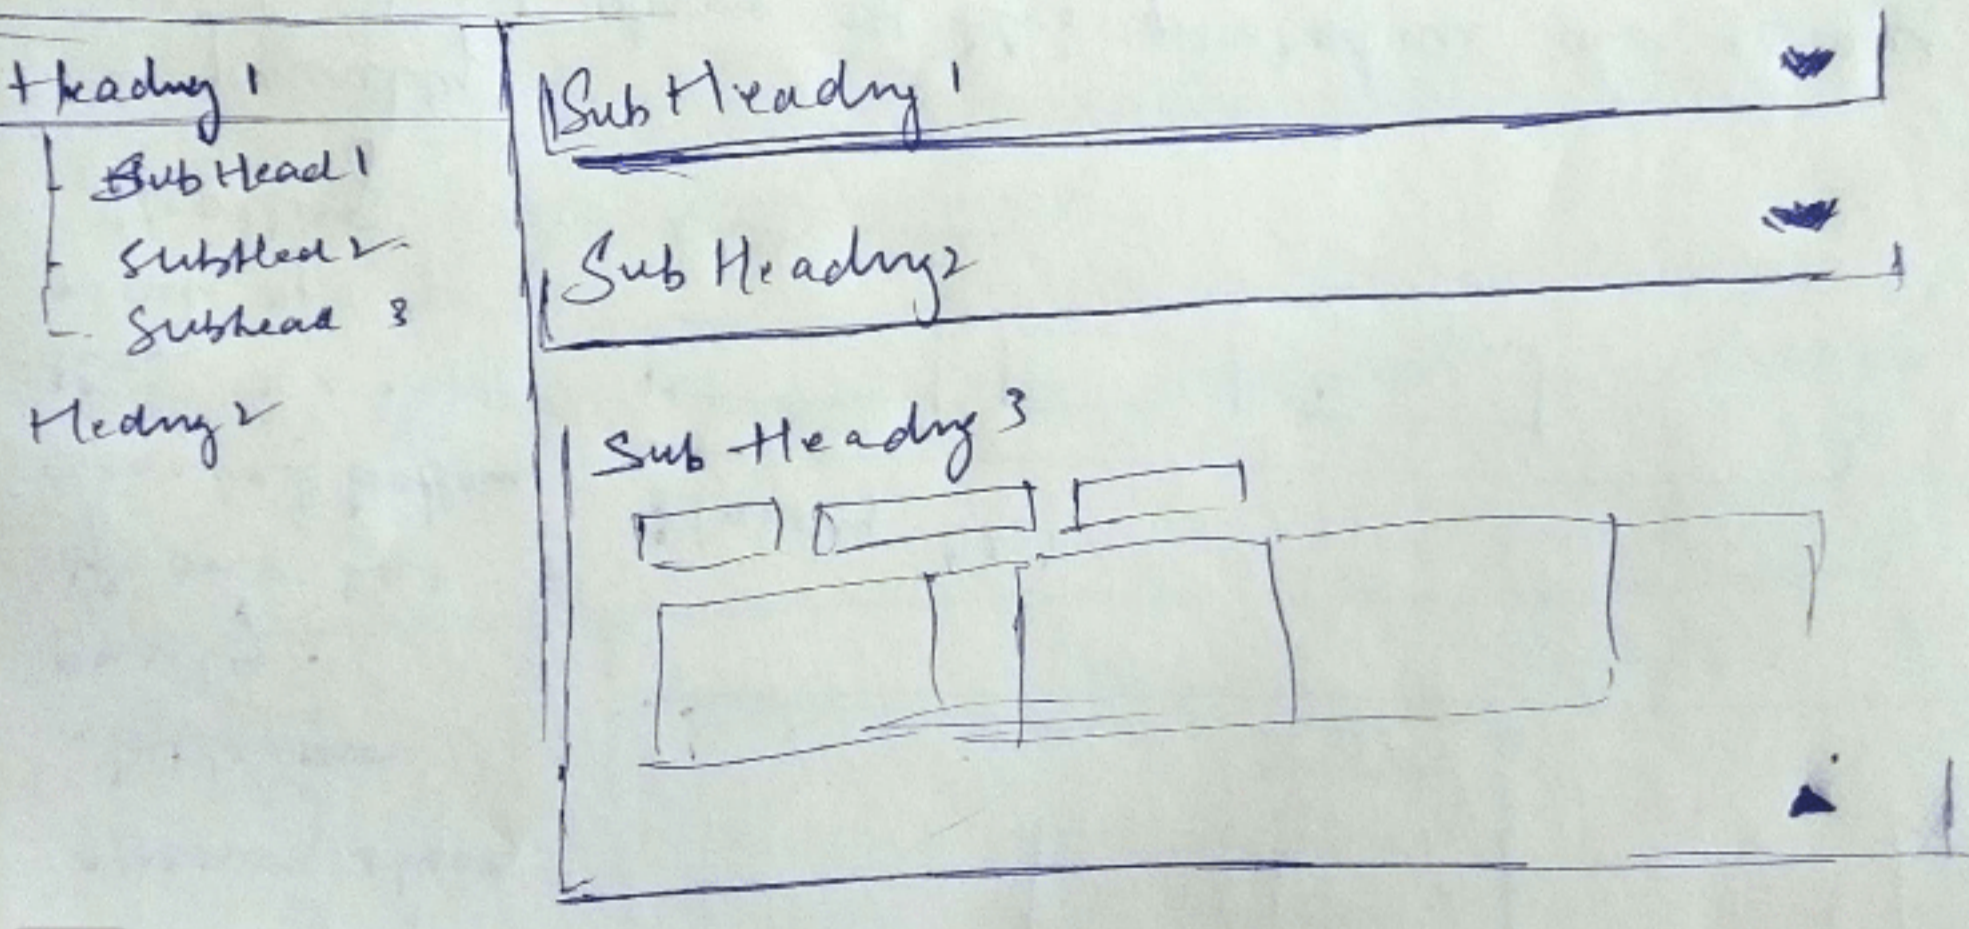

Providing expandable tables (cards) for better experience.
